

## Insight Track

Sarah Stevens  
Eastern Cancer Registration &  
Information Centre  
15 June 2012

## The Context

- Cancer Registry data in ENCORE; time and location of each episode of care
- Complex pathways
- Need to understand the patient flows
- Ability to interrogate the data

## Patient Pathways

### A demonstration

## The Benefits

- Identify specific cohorts of patients and enable further analysis
- Commissioning support tool
- Service reconfiguration
- Visualising other patient flows

## Acknowledgements

- Jem Rashbass, Andrew Murphy, Sally Vernon, Brian Shand, Tim Gentry ECRIC
- Trace Media
