

Sarcoma NSSG Workshop

March 2012

Trish Stokes, NCIN

Overview

- Update on datasets
 - Radiotherapy - RTDS
 - Chemotherapy - SACT
 - Diagnostic imaging - DIDS
 - Cancer Waits - CWT
 - Cancer Outcomes and Services - COSD
- Related initiatives
- Key issues for COSD implementation

Improving outcomes: our ambition

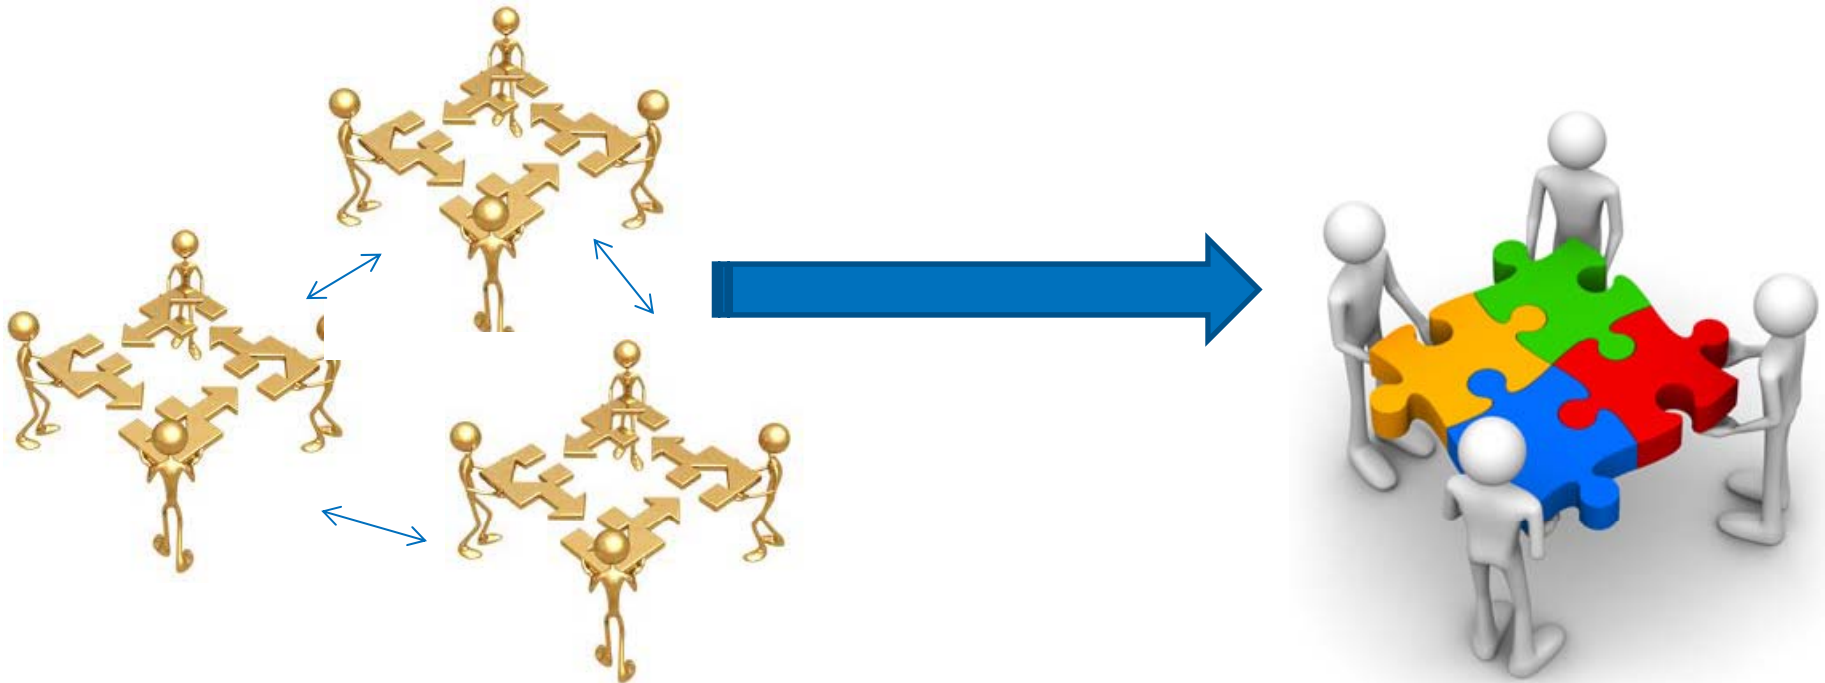

- “Our aspiration is that England should achieve cancer outcomes which are comparable with the best in the world”

You want Information?

Where does the data and information come from?

Your patients, your MDTs, your hospitals!

Radiotherapy

- RTDS - NatCanSAT
 - website – provider activity
 - Cancer Registry – ‘fact of radiotherapy’
 - Developing ‘Treatment Summary Analytical Extract

- CCT
 - Charts
 - Profile
 - NRIG report

Chemotherapy – SACT (1)

- ISN from April 2012 (ISB 1577)
 - All patients receiving cancer chemotherapy
 - Adult – solid & haematology
 - Paediatric
 - Phased implementation until April 2014
 - Piloting uploads now
 - State of Readiness Forms
 - Clinical sign-off

Diagnostic Imaging Dataset

- ISN from April 2012 (ISB 1577)
 - To provide information about access of NHS patients to diagnostic imaging tests across the country
 - All diagnostic imaging tests carried out on NHS patients
 - Monthly submissions from local RIS systems
 - Patient level
 - NO RESULTS
 - Access for Cancer Registries

- Revised dataset from July 2012
- Aligned with COSD
- ICD10 Edition 4 from April 2012
- XML Submission from Autumn 2012

CWT – Breast Rec/Mets

- Pilot Results – Monday 19th, NCIN Breast Event
- From April 2012 - CWT
 - Every patient, every treatment, every time
 - Data items already exist (not just for breast)
 - Remind clinical teams
- From January 2013 – COSD
 - Additional clinical and supportive care items

Cancer Outcomes and Services Dataset (COSD)

- Replaces ‘National Cancer’ & ‘Cancer Registration’ datasets
 - **Compiled** dataset (data linked and assembled by Registries)
 - Defines data for direct submission by Trusts
 - All registerable conditions
 - Wider than CWT
- Components
 - Core (Registration and Cancer Waits)
 - Site specific – clinical & pathological
