CANCER SUPPORT

The number of people living with cancer is set to double by 2030

Source: Maddams J, Utley M, Møller H. Projections of cancer prevalence in the United Kingdom, 2010-2040. Br J Cancer 2012; 107: 1195-1202.

INCIDENCE

MORTALITY

SURVIVAL

I was diagnosed early	I understand, so I make good decisions	I get the treatment and care which are best for my cancer, and my life
Those around me are well supported	I am treated with dignity and respect	I know what I can do to help myself and who else can help me
I can enjoy life	I feel part of a community and I'm inspired to give something back	I want to die well

The Recovery Package

The Recovery Package- supporting commissioning

The recovery package has been developed and tested by the [National Cancer Survivorship Initiative](#) (NCSI) ([NHS Improvement 2012](#)) to assist people living with a diagnosis of cancer to prepare for the future, identify their individual needs and support rehabilitation to enable people to return to work and or a near normal lifestyle.

The recovery package has been designed to complement the [stratified care pathway](#) ([NHS Improvement 2012](#)) which enables individualised follow-up care as a supported self management programme, shared care or complex care.

 Cancer Early

Scottish Cancer Taskforce

The Scottish Cancer Taskforce (SCT) oversees the actions outlined within [Better Cancer Care, An Action Plan](#). Progress made in delivering the commitments set out in Better Cancer Care was published in [Better Cancer Care Progress Report 2010](#).

The progress report also identified a number of areas where further work was needed. These areas are set out in the Scottish Cancer Taskforce's workplan and are reported against at each SCT meeting.

The Taskforce is chaired by **Dr Aileen Keel**, Deputy Chief Medical Officer, Scottish Government and includes representatives from Cancer Area Networks, NHS Chief Executives' Group, NHS Directors of Nursing Group, NHS Information Services Division and from the voluntary sector.

Minutes from SCT meetings

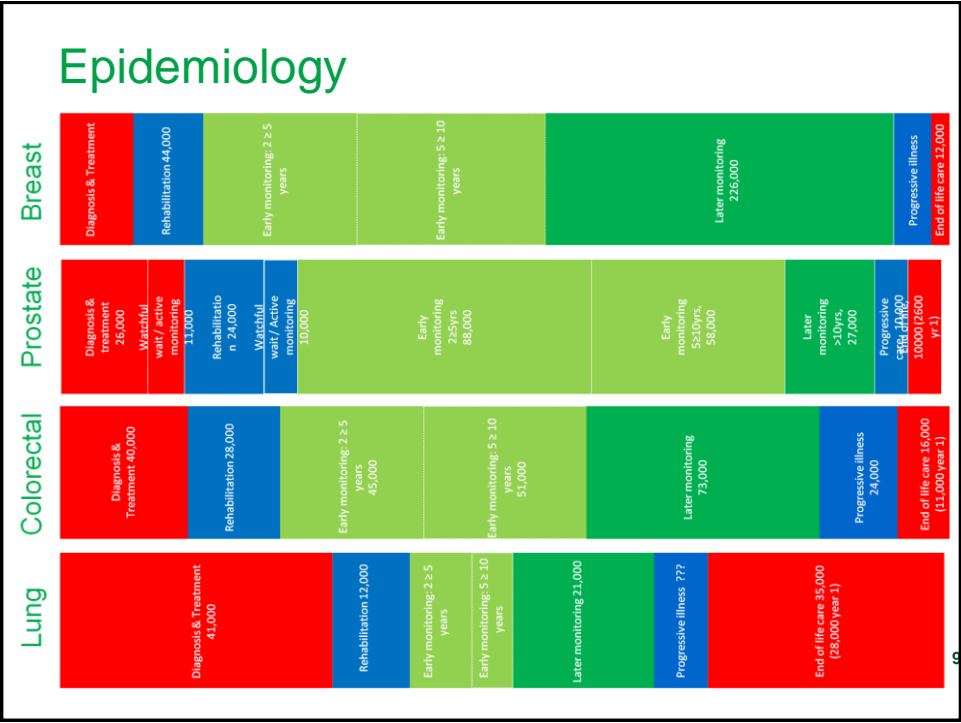

Once approved by the Group, [SCT minutes](#) are made available online. Minutes from earlier meetings are available on request. Please note that there is a delay in publishing action notes, since notes taken from a meeting must be formally agreed by the group at the subsequent meeting before they become a public document.

NHS England

A guide to our vision and purpose

"We exist to deliver high quality care for all, for now and for future generations."

Our vision

Everyone has greater control of their health and their wellbeing, supported to live longer, healthier lives by **high quality** health and care services that are compassionate, **inclusive** and **constantly-improving**.

We work to improve the lives of individuals, local communities and the population as a whole

We have a single, common definition of high quality care: it is safe, effective and a positive patient experience

We tackle inequalities, we listen, we are open and transparent and we work with patients, the public and partners to get the best outcomes

We are committed to a dynamic and innovative NHS

Our purpose

*Including: a world-class customer focus;
openness and transparency; genuine patient
and public participation; empowering clinical leaders;
evidence-based decision making; promoting innovation;
working across organisational boundaries*

We create the culture and **conditions** for health
and care services and staff to deliver the highest
standard of care and ensure that valuable public
resources are used effectively to get the best
outcomes for individuals, communities and
society for **now and for future** generations.

*Not only money,
but our people,
our knowledge
and skills*

*We are committed
to ensuring our resources
secure a sustainable NHS*
