Public Health England

Cancer Roadshows 2015

spreading the word
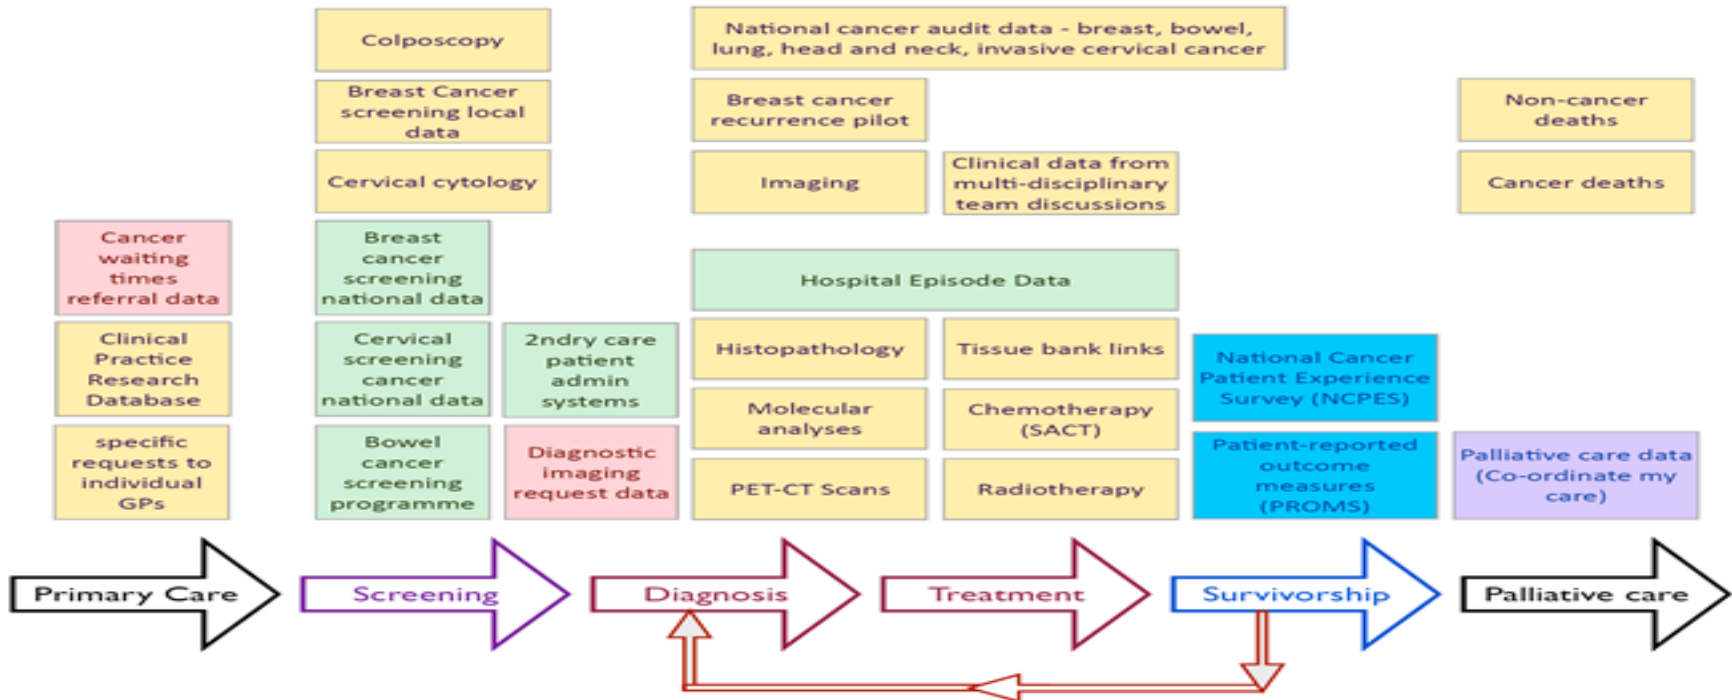

Major changes over last two years

- **Organisational changes**
  - **NHS and PHE, NCIN and NCRS, Cancer Networks**

- **Data collections -**
  - **New - COSD, SACT, DIDs**
  - **CWT, RTDS, HES**
  - **Audits**

- **Tools**
  - **CCT, COSD portal, elearning**

- **Access to data**
 - **Cascade, CHI**

NCIN - Cancer Data Sources

Data Sources

Public Health England

2014

Cancer data flows

Cancer Outcomes and Services Dataset (COSD) specification for standardised, mandatory and optional data fields

Direct feeds:
- Patient Administration Systems
- Data from MDTs
- Pathology full-text reports
- Imaging Systems

Indirect feeds:
- Cancer Waiting Times
- Chemotherapy dataset
- Radiotherapy dataset

Other:
- ONS cancer and non-cancer deaths
- Hospital Episode Statistics
- National Cancer Screening
- National Cancer Audits
- National PET-CT Imaging

National Cancer Registration Service

8 regional registration teams
- Coding and classification group
- Data quality group

Single cancer registration system

English National Cancer Online Registration Environment – ENCORE

Anonymised patient/tumour level cancer registration data from:
- Information and Services Division Scotland
- Welsh Cancer and Intelligence Surveillance Unit
- Northern Ireland Cancer Registry

PHE Office for Data Release
Dealing with data access request

Researchers

PHE NCIN Outputs

Tools
- Cancer Commissioning Toolkit
- Cancer e-atlas

Information
- NCIN central analytical projects
- NCIN Site Specific Clinical Reference Group projects

Examples of geographies analysed by:

NHS England
- 7,600 GP Practices
- 211 Clinical Commissioning Group
- 161 Acute Hospital Trusts
- 27 Local Area Teams
- 23 Commissioning Support Units
- 15 Academic Health Science Networks
- 12 Clinical Senates
- 10 Specialised Commissioning Hubs

Public Health England
- 150 Local Authorities
- 140 Health and Wellbeing Boards

Clinicians | Charities | Commissioners | Policy Makers

Data for change

How to communicate this?

Strategic Clinical Networks

- 12 Cancer roadshows

- Collaboration between NCIN, NCRS and SCNs

- Building the links

- Access to commissioners and clinicians

- Update on changes

- Importance of getting the data in to get the information out

- Hands on access to tools

- Discussions on local issues

Progress so far

- Working group – NCIN, NCRS, SCN

- Outline for day

- Format and content

- Contacted all SCNs – 10 out of 12 so far

Who's it for?

Locally based NHS, PHE and Local Authority staff

- -NHS cancer clinicians

- NHS Radiology/pathology

- NHS Cancer/information Managers (inc radiotherapy/chemotherqpy)

- NHS England Commissioners

- Primary Care/CCGs

- NHS England SCN Cancer Leads

- Local Authority (via toolkit)

- Analysts – PHE/NHS/LA/Public Health local

What's the format?

Modular half day sessions

Introduction and scene setting (clinical presenter)

What does the cancer landscape look like now?

What data is collected and how?

What data/information is available and how?

Local setting and issues

Problem solving tables

Plenary and summary

To include Issues and next steps

Practical sessions

Hands on

Café style sessions to include: (max 10 per table, half hour per session)

(Problem scenarios Questions to be explored on the tables)

COSD collection and feedback - dataset, conformance portal and clinical indicators)

SACT and RTDS

CWT and DIDs

Online tools – Cancer Commissioning Toolkit

Other tools - Fingertips,

Data analytics – Knowledge and Intelligence teams, Cascade, Data Access

Displays

E learning…

Issues

Change hasn't stopped!

- Future of SCNs

- PHE strategic review

- NCIN priority setting

- Need volunteers!!!

Your thoughts and feedback
